

_qubeuiPanelsRunningInstances

The Running Instances Panel displays all the instances that are currently running on the farm. This gives an isolated overview of what the farm is currently working on. The Running Instances Panel doesn't refresh automatically, to view an updated list click the refresh button as shown below.

Running Instances

Job ID	Instance ID	Worker	Slots Requested	Slots Allocated	Instance Run Time	Job User	Job Name	Work Complete
17421	0	Poseidon	1	0	0s	joe	Test Job	0
17421	1	Poseidon	1	0	0s	joe	Test Job	0
17421	2	Poseidon	1	0	0s	joe	Test Job	0
17421	3	Poseidon	1	0	0s	joe	Test Job	0

Apart from only showing the running instances the panel works like the [Instances Panel](#) so refer to that for more information.
