

# How to restart the Supervisor

## Linux

```
% sudo /usr/bin/systemctl restart supervisor
```

Or

```
% sudo /sbin/service supervisor restart
```

## macOS

```
% sudo launchctl stop com.pipelinefx.supervisor
```

```
% sudo launchctl start com.pipelinefx.supervisor
```

## Windows (Administrative Tools)

Click on the Services icon in the Administrative Tools section of the Windows Control Panel. Select the `qubeSupervisor` service and right click to select Restart from the menu.

## Windows (Command line)

From a command prompt:

```
C:> net stop qubesupervisor
```

```
C:> net start qubesupervisor
```

You can also restart the Supervisor via the GUI:

"Administration > Supervisor > Stop", then

"Administration > Supervisor > Start"
